

Band room management that actually fits

Students · Fees · Payments · Fundraising · Attendance · Inventory · Travel

FireSafe is built for directors, boosters, and school music staff — one program workspace for the roster, money, gear, trips, and calendar. 30-day free trial. No credit card required.

Start at firesafeband.app · Full features during trial

● Students & families

Roster, approval workflow, emergency book with guardians and insurance, QR update cards so parents keep info current without a login.

● Fees & credits

Fee templates, batch or ensemble apply, partial payments, fundraising credits applied to student balances. Credit report so you can see who still owes.

● Accounts & categories

Bank-style ledgers with running balance, cleared checkboxes, memos, categories, and pie-chart analysis. Link transactions to students and fundraisers.

● Attendance

Events scoped to ensembles or all students. Present, tardy, excused and unexcused absent, plus notes. Auto-save. Built for the podium, not a spreadsheet.

● Music library

Catalog your library. Optional sharing: off, district, state, or all — directors choose what others can search.

● Calendar

Program calendar with add/edit events. Subscribe a public Google Calendar (iCal) so district or school events show next to yours.

● Ensembles

Marching, concert, jazz, and similar groups live inside one program — they are not separate programs. Students can belong to more than one. Fees, trips, and attendance can target a single ensemble or the whole program.

● Online parent payments

Parents pay with Stripe from a token link — no parent account. Full or partial. Money lands on the booster connected account. Optional small platform fee.

● Fundraising

Per-student raised totals, fee-credit from fundraisers, public pay link and QR. Print a concession-stand sign with program name, fundraiser, QR, and accepted cards.

● Instrument & uniform inventory

Serials, check-in/out, types, repairs, and documents. Never lose a plume or a serial number again.

● Lockers

Assign and track lockers alongside inventory so gear and storage stay in one place.

● Trips & itineraries

Trip records, students and chaperones, bus assignments, printable itinerary, contacts, and bus rosters.

● Documents

Personnel, financial, inventory, and travel folders — receipts, contracts, permission slips, background checks — served through the app, not a public folder.

● Live concession board

Optional public board that polls recent online credits so the concession line can see payments land in near real time.

● Roles & permissions

Director, Assistant Director, Booster Admin, Student Helper, District Supervisor. Per-area none / view / edit. Student Helpers stay off student PII and money.

● Trial & sample data

Load marked, read-only sample records on day one. Delete them when you are ready for your own roster. 30 days, full features.

Who FireSafe is for

● Directors

One workspace for the program you actually run — not a generic school SIS.

● Booster officers

Ledgers, receipts, fundraisers, and online payments without a second set of books.

● Assistant directors & helpers

Directors grant view or edit by area. Student Helpers can work library, inventory, or attendance only.

● District supervisors

Visibility across schools and programs when the district plan is in use.

Programs vs. ensembles

A program is the top-level container for one director's group at a school — typically Band, Chorus, or Orchestra. Students, fees, accounts, fundraisers, trips, inventories, lockers, music library, and the calendar all live under that program.

Do not register separate programs for marching band, concert band, jazz band, or similar. Those are ensembles inside one Band program. One program can hold many ensembles; students can belong to more than one. Fees, trip rosters, and attendance can then target a single ensemble or the whole program.

Billing is separate from that structure: one subscription can cover more than one program for the same director (for example middle and high, or band and chorus) so you are not charged twice.

Simple pricing

30-day free trial on every plan — no credit card required.

Individual programs: \$19.99 / month or \$199.99 / year.

District plan: one supervisor, unlimited directors, schools, and programs.

Online parent payments use Stripe. Optional small platform fee on charges; waived where required (for example, certain school-system ethics rules).

What you will not have to do

- Parents do not create FireSafe logins. They use a secure token link to update student info or pay.
- You do not collect bank routing numbers. Stripe Express handles connected-account onboarding.
- You do not run a second spreadsheet for “who paid what.” Fees, credits, and the ledger stay together.
